Poke Perk is "amall potators." The Kansas City Journal of Commerce says that a party returned from Pike's Peak exhibit small particles of gold and black sand in small goose quills, and report it as the result of a summer's hard labor. They were in the mines prospecting three months and believe there is some gold there, but not sufficient quantities to pay for mining.

Major John Schwartz, who is elected, is an anti-Lecempton Democrat.—N. Y. Tribune.

The Election in Indiana.

The Anti-Administration triumph is complete. The Pataburgh Gazette of the 15th states that the footings of the vote on the State ticket show that Read is elected Judge by at State. The contest for Congress resulted in the state that the footing of the vote on the State ticket show that Read is elected Judge by at State. The contest for Congress resulted in fourteen tubes would have been laid, but one least 25,000 majority, and Frazer Canal Commissioner by 20,000. Philadelphia gives Read two of the meanest sort) and eight Opposition,

1st District-Niblack, Lecompton, re-elected —Niblack, Lecompton, re-elected. Kaglish, Lecompton, re-elected. Dunn, Opposition, a gain. Hollman, Lecompton, no change Kilgore, Opposition, re-elected. Porter, Opposition, a gain. Davis, Opposition, a gain. Wilson, Opposition, re-elected. Colfax, Opposition, re-elected. Case, Opposition, re-elected.

The Opposition, it is seen, have gained three In the 1st District the Democratic majority in 1856 was 4,770. Niblack has car ried it by only 800 majority, showing a Demo-cratic loss of near four thousand. In the 2d District English was elected in 1856 by 2,650 majority. He has succeeded this time by a small majority-showing a loss of at least two thousand. It is greatly to be regretted that this infamous traiter to principle was not defeated. We believe he owes his election to mistakes on

the part of the Opposition.

In the 4th District, now represented by Fo LEY, Judge HACKLERAN made a gallant run, but he was not able to overcome the majority of 1,453 which was given for the Democrats in 1856. The locofoco voters in that region are attached to party more than to principle. In the 5th district, which gave a Democratic majority in 1856 of 947, and is now represented by Husans, who in point of reputation, is on a par with Exertan, Down, a true and lible Republican, is elected by 300 majority. In the Seventh District, Davis was elected in 1856, as a Democrat, by 1,608 majority. He has now carried it as an Auti-Administration man, by from three to four thou-sand unjority. He was the only Democrat in Congress, from Indiana who resisted the Le-counton measures of the President. He was read out of the party, and Mr. Securer was nominated by the Administration men, but the people have noble sustained Mr. Davis. He was cordially supported by the Republicans and Americans of the District. The remaining Districts have all re elected the Republicans who

now with firmness and ability represent them. The indications are that the Opposition hav elected thirteen out of twenty five State Sena-ors, and fifty-seven out of one hundred memhers of the lower House, thus securing a major ity in both branches of the Legislature. The State ticket is also probably elected. The Le-e suptomites claim three or four of the Judges, but our impression is the Opposition have made clean aweep.
Indiana stands side by side with Pennsylva

nia and Ohio, in opposition to Lecomptonia political despotism and official corruption. Hos. J. R. Gibbinas.—The Detroit Adver-

It is conceded that the Republican State ticket is elected by a decided majority, and no attention seems to be paid to the returns. The only estimated majority at Columbus we have seen ranges from ten to fifteen thousand.

AN EVE TO POSTRETY.—The ancient City of the Straits has just completed the great Reservoir of the Water Works, which the Detroiterages from ten to fifteen thousand. The Congressional Districts are now all heard the gress desertion of the popular principle by the Chief Magistrate of the Republic; but it is, 15 feet at the top, and are 30 feet high. The from definitely except the 17th. The returns from this District render it highly probable that the same time, a tribute to Pennsylvania at the same time, a tribute to Pennsylvania feeling, and to that hier which is cherished by Reservoir is divided into two basins which are all our people—that of protection to American bricked up in the inside, and connected by a industry. large pipe. MISSOURI LANDS -- Doct. B. T. Spelman, in mineral and agricultural wealth, will be re-decured from the curse that now rests upon it. A point of interest to those who enter lands at the Land Offices, is the fact that the issue of a certificate by the land agent constitutes a sale, and passes the title from the United States to the purchaser, as securely as a Patent can do it.
